## License

This document uses a Creative Commons CC-BY-SA license which allows you to re-use this document for any purpose, even commercial ones, but forces you to maintain the same license. Since a public university pays me for doing this course, I have no problem if you re-use this material even for commercial purposes. In case you extend or modify this material in a way that can be useful to others, I appreciate if you contact me and notify me of where you put your own copy of this material.

What this license allows you to do is:

**Share - copy:** and redistribute the material in any medium or format

**Adapt - remix:** transform, and build upon the material for any purpose, even commercially.

**Under the following terms:**

**Attribution:** You must give appropriate credit, provide a link to the license, and indicate if changes were made. You may do so in any reasonable manner, but not in any way that suggests the licensor endorses you or your use.

**ShareAlike:** If you remix, transform, or build upon the material, you must distribute your contributions under the same license as the original.

The licensor cannot revoke these freedoms as long as you follow the license terms.

This work is licensed under a Creative Commons “Attribution-ShareAlike 4.0 International” license.

# Contents

<b>1</b>	<b>Introduction</b>	<b>4</b>
1.1	Your title page . . . . .	4
<b>2</b>	<b>Group and Activity description</b>	<b>5</b>
2.1	Introduction to the Project . . . . .	5
<b>3</b>	<b>The group work</b>	<b>6</b>
<b>4</b>	<b>Conclusions</b>	<b>7</b>

# 1

## Introduction

Follow this template for your project. If you want to use LaTeX, you can find the source code of this document on Moodle.

### 1.1

## Your title page

aaaa

## 2

## Group and Activity description

Please describe here the components of the group, and how the work was split among you.

### 2.1

### Introduction to the Project

- goals of the project
- why it is important
- what we did in a nutshell

**3**

## **The group work**

Here you can describe your work, use as many sections as required

What have you learned.

**Bibliography****Appendices**

- code fragments
- configuration files
- whatever else is needed to make your experiments reproducible

## Evaluation Page

Leave this page as it is.

**Technical Content [0-10]:**

**Deepness And Soundness [0-3]:**

**Presentation [0-2]:**
